About CARE

CARE (Climate Action, Renewable Energy & Sustainability Forum) is a global event series where sustainability meets real-world action. Organised by Trescon, it brings together policymakers, investors, innovators, and industry leaders to accelerate the transition towards clean energy and climate resilience.

From renewable power and decarbonisation to green finance and circular innovation, CARE drives the conversations and partnerships that turn ambition into measurable progress.

Co-located with DATE – Digitization, AI & Emerging Tech Summit – the forum serves as a launchpad for breakthroughs in sustainability, investment, and collaboration. Join us in Dubai to be part of the movement shaping a cleaner, smarter, and more sustainable world.

Themes in focus

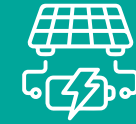

Regulating global climate policy

- Progress on NDCs
- MENA's Role in Global Agreements
- Mobilizing funds for climate action.
- Building international partnerships for sustainable solutions.
- Ensuring national policies support global climate goals.

Mobilising finance for sustainability

- Green projects in the MENA region
- Green bonds and climate funds
- Environmental factors in finance
- Impact investing in MENA
- Public-private partnerships for sustainability

Advancing EV and smart transportation

- EV adoption and acceleration
- EV charging infrastructure
- Battery innovation and recycling
- E-Mobility policies and incentives
- Sustainable public and micromobility

Accelerating energy transition

- MENA's clean energy targets
- Renewable grid integration
- MENA's geothermal resources
- Energy storage solutions
- Decentralised renewable systems

Implementing nature-based solutions

- Forest restoration and conservation
- Eco-friendly farming practices
- Sustainable bioenergy production
- Coastal ecosystems for carbon sequestration
- Natural ecosystem preservation

Driving industrial decarbonisation

- Reducing emissions in energy, transport, and industry
- Expanding solar, wind, and other clean sources
- Promoting EVs and building infrastructure
- Shifting industries to cleaner technologies

Transforming energy circularity

- Optimising energy to fuel a circular economy
- Driving circular systems for a sustainable future
- Exploring innovations in harnessing heat and cold energy
- Minimising waste, optimising energy usage

Achieving net zero by 2050

- MENA's long-term carbon neutrality goal
- Scaling clean energy for net zero
- Implementing CCS to reduce emissions
- Optimizing energy use across sectors
- Enabling net zero with policies and technology

Speakers

H. E. ENG. AMAL ABDULRAHIM

Assistant Undersecretary for Support

ESG AWARDS

BY **trescon** **ESG**[®]
mena

Join us for the CARE ESG Awards 2025 on 27 November in Dubai — celebrating the leaders, organisations, and projects setting new benchmarks in sustainability, clean energy, and responsible business.

Organised by Trescon and supported by ESG MENA, the awards recognise outstanding achievements in climate action, renewable innovation, ESG integration, and green finance — honouring those driving measurable progress towards a sustainable future. Winners will gain global recognition among investors, policymakers, and industry leaders attending CARE.

CLIMATE TECH WORLD CUP

MENA REGIONALS

Witness the climax of sustainable innovation at the ClimateTech World Cup on 27 November during CARE MENA.

This premier global pitch competition spotlights the world's most promising ClimateTech and clean-energy start-ups — showcasing innovations in renewable energy, carbon capture, sustainable materials, water innovation, circular economy, and more. The ten finalists will present breakthrough solutions with the power to drive real climate impact.

The finale offers founders unparalleled visibility, credibility, and access to investors, corporates, and policymakers — celebrating the boldest ideas shaping a cleaner, more sustainable planet.

CARE

DIALOGUES

Closed-door, outcomes-driven roundtables connecting enterprise leaders, policymakers, and investors to accelerate sustainability and climate action in the MENA region.

CARE Dialogues are curated, invitation-only sessions where CXOs, government officials, and key stakeholders come together to align on strategic priorities, explore innovative solutions, and forge actionable partnerships. Each dialogue is designed to deliver tangible outcomes — from pilot projects and collaborative initiatives to policy recommendations — ensuring participants leave with commitments, not just contacts.

For more information, visit:

<https://careforsustainability.com/care-dialogues>

CARE LAUNCHPAD

Spotlighting breakthrough sustainability solutions, research, and technologies, CARE Launchpad gives innovators, universities, and enterprises a global stage to showcase ideas that can drive real environmental impact.

The initiative connects promising projects with investors, policymakers, and industry leaders attending CARE, helping turn vision into viable, scalable action.

For more information, visit:

<https://careforsustainability.com/care-launchpad>

CARE

INNOVATION PROGRAMME

An international pitch competition that aims to discover the brightest young minds harnessing sustainable innovations to tackle real-world challenges. Students present their ideas to a panel of handpicked industry leaders and investors. Selected teams will gain mentorship and recognition to transform their ideas into impactful solutions, shaping the future of sustainable world.

Trescon unveils CARE: A global summit series powering climate action, sustainability, and clean energy innovation

JULY 1, 2025 4 MINUTES READ 4 MONTHS AGO

f x in

Date, Dubai, UAE: In response to the urgent demand for real climate solutions, Trescon introduces CARE – the Climate Action & Renewable Energy Expo. Launching this September in India, the global summit series is built for action: 10,000+ attendees, 950 investors, 225 sponsors, and 200+ global speakers driving deals, partnerships, and scalable impact across clean energy, climate tech, and finance.

The MENA edition of CARE is scheduled for 26-27 Nov 2025 in Dubai, while the KSA edition will take place on 8-9 Dec 2025 in Riyadh.

The series kicked off with the CARE Dialogues on 24 June 2025 – an exclusive, invite-only session, held in Dubai under the theme “Green Finance and Beyond: Driving ESG Across Sectors.” Powered by Entribe, the event convened senior leaders from finance, policy, and technology to explore practical strategies for embedding ESG into core business models.

“As a partner of CARE, we’re proud to back a platform that focuses on what really matters – getting the right people in the room and driving honest, outcome-focused conversations,” said Mohammed Saleem, Founder of Entribe. He continued, *“There’s a lot of talk in this space. CARE stands out by pushing for action that’s practical, collaborative, and needed.”*

As the first official prelude to CARE, the session set the tone for cross-sector collaboration and is helping shape a summit agenda grounded in real-world priorities and regional relevance.

The timing couldn’t be more urgent. Across the Middle East and North Africa, demand for clean energy is accelerating. As per Economy Middle East, the region’s installed solar capacity reached 24 GWAC in 2024 – a 25% year-on-year increase, with projections showing this could surge past 180 GW by 2030. Over the next five years, MENA is expected to add another 62 GW of new renewable capacity (Middle East Solar Industry Association). Countries like the UAE, Saudi Arabia, and Egypt are investing heavily in solar, wind, and green hydrogen, signalling a decisive shift in national energy strategies. According to the International Renewable Energy Agency, expanding renewable energy to 30% of the power mix in key MENA economies could create up to 1.2 million jobs by 2050. The region is not just setting targets; it’s laying the groundwork for a deep energy transformation.

Trescon has officially unveiled CARE - the Climate Action & Renewable Energy Expo, a high-impact global summit series launching in September 2025. Designed to drive climate action and sustainable innovation, CARE is set to convene over 10,000 attendees, 950 investors, 225 sponsors, and more than 200 global speakers. The series aims to generate real investment opportunities, forge partnerships, and create scalable impact across sectors such as clean energy, climate tech, and green finance.

The MENA region will host two key editions of CARE later this year: Dubai on November 26-27, and Riyadh on December 8-9. The official lead-up to these events began with the CARE Dialogues, held on June 24, 2025, in Dubai. The exclusive, invite-only session focused on "Green Finance and Beyond: Driving ESG Across Sectors." Powered by Emtribe, the gathering brought together senior figures from policy, finance, and technology to explore how ESG can be embedded into core business models.

"As a partner of CARE, we're proud to back a platform that focuses on what really matters - getting the right people in the room and driving honest, outcome-focused conversations," said Mohammed Saleem, Founder of Emtribe. He continued, "There's a lot of talk in this space. CARE stands out by pushing for action that's practical, collaborative, and needed."

This kickoff event set the tone for cross-sector collaboration, grounding the summit agenda in regional realities and tangible outcomes.
